

National Cancer Patient Experience Survey

This questionnaire is about your cancer care and treatment. Its purpose is to provide information which can help the NHS monitor and improve the quality of health services for future patients.

Who should complete the questionnaire?

The questions should be answered by the person named in the letter enclosed with this questionnaire. If that person needs help to complete the questionnaire, the answers should be given from their point of view - not the point of view of the person helping.

Completing the questionnaire

For each question please tick inside the box that is closest to your views using a black or blue pen. Don't worry if you make a mistake; simply cross out the mistake and put a tick in the correct box. Please **do not** write your name or address anywhere on the questionnaire.

If you would prefer, you may also complete this survey online. To do this, please refer to the login information which can be found in the letter accompanying this survey.
